Test 1 Stats

MATH 105–01; Spring 2017

Below is the data for the first test. The data is expressed in percentages (not in point values). Our section has 50 students.

Mean (%)	69
Median (%):	70
σ (%)	25

Although this course is a raw percentage course (no grade adjustments until the end), an approximate 'grade breakdown' is given below (in percentages) that reflects your performance on this test with respect to your peers:

A: ≥ 90 B: [78,90) C: [60,78) D: [45,60) F: <45.

The following chart gives the breakdown of scores:
